INTRODUCTION

ABOUT JL INDUSTRIES

Choices and Quality: We offer you the convenience of the full range of products from JL Industries, Samson Products and Thomas Enterprises complete in one catalog.

Here you can find the largest selection of fire extinguisher cabinets in the industry, including steel, stainless steel, aluminum, brass and bronze with a host of optional features. JL's reputation for quality products has made us an industry standard for over 70 years.

More Warehouse Locations: 1-3 day shipping on hundreds of our most popular products from our centrally-located warehouses in the US with our Quick Ship Program. See a list of locations on page 24, or check the latest stock list on our website.

Environmental: Contact us for the documentation you need.

Versatile Manufacturing Capabilities: With the combined resources of our two manufacturing facilities, you can create your own distinctive cabinet with the size and features you need, for the look you want. Just Ask Us!

Our involvement with organizations such as the National Fire Prevention Association (NFPA), the Door and Hardware Institute (DHI), the Construction Specifiers Institute (CSI) and the National Association of Fire Equipment Distributors (NAFED) enables us to remain at the forefront of industry requirements with products to keep you in compliance with current building codes.

Website Resources: Find all of the documentation you need and the most current product information on our website at **WWW.ACTIVARCPG.COM**

WARRANTY

All fire protection products carry a one-year warranty after date of shipment against defects in materials and workmanship. We will replace or repair any product found defective within this period at our discretion. No other warranty express or implied is valid. Fire extinguishers may carry a longer warranty.

AMERICANS WITH DISABILITIES ACT (ADA) GUIDELINES

Look for Model Numbers in Blue to find cabinets that meet the ADA 4" Projection Requirement.

- Cabinets with the number "2" as the fourth character of the model number. These models project only 4" from the wall and include a flush pull.

- All trimless and flat trim models with standard pull.

- All 1 1/4", 1 1/2", 2 1/2" or 3" trim models with standard pull—excluding bubble cabinets.

Projection Requirements

The federal regulations for ADA Standards for Accessible Design Section: Protruding Objects Section (28 CFR 36, 4.4.1) specify that "objects projecting from walls with their leading edges between 27" and 80" (685 mm and 2030 mm) above the finished floor (AFF) shall protrude no more than 4" (100mm) into walks, halls, corridors, passageways, or aisles. Please note that a surface-mounted cabinet installed in such a way that any part of it falls between 27" and 80" AAF would not meet ADA requirements.

These are national standards which are subject to change by local authorities having jurisdiction. ADA requirements, in particular, are constantly evolving through ongoing legislative and judicial actions. For more information: http://www.ada.gov

Mounting Heights

The NFPA and ADA have created guidelines for the mounting of cabinets and extinguishers to provide safety and/or easy access to the equipment. ADA guidelines specify reach ranges for building occupants who require access to equipment such as fire extinguishers and other fire safety devices. According to the ADA Standards (28 CFR 36, 4.2.5 and 4.2.6 the cabinet handle be mounted higher than 48" AFF for applications which allow for only a forward approach in a wheelchair to the object. It should be noted that these restrictions also fall within the current National Fire Protection Association (NFPA) guidelines, which call for a maximum mounting height of 60" AFF to the top of the extinguisher.

See our website for more information on mounting heights.

JL INDUSTRIES FIRE-FX2™ FIRE-RATED CABINETS

▶ UL-Listed

▶ Lightweight Insulation

▶ Lower Shipping Costs

▶ Easier to Install

▶ Patent-Pending

C (UL) US
LISTED

1037V10FX2

JL Industries led the industry by introducing the first pre-lined Fire-Rated Cabinets in 1991. Those cabinets have changed and simplified the installation process forever.

Now, JL has taken the next step and eliminated the heavy gypsum wallboard to line cabinets, by replacing it with lightweight, mineral wool insulation. The second steel tub is not needed with the new design, reducing the weight even further.

FIRE-FX2™ cabinets are insulated with Firespan™ 90 by Thermafiber®, a UL-Listed, inorganic, mineral wool fiber insulation with a high recycled content.

1000, 1800, 1500 Series Cabinets Weigh an average of 14.75 lbs less!

UL LISTED
Tested to maintain one and two-hour fire rated wall barriers, in accordance with ANSI/UL-1479 (ASTM E814 and ULC.CAN S115) for membrane penetration firestops.

TO ORDER OR SPECIFY
Just add **FIRE-FX2™** option to the end of the seven-digit JL model number. For example, if you want an Ambassador 1017F10 with the fire rated option, ask for the **1017F10FX2.**

FX2 WALL OPENINGS
Are slightly larger than the previous FX wall openings to accomodate FIRE-FX2™. See website for up to date catalogs and submittals.

Look for the Red FX2 Symbol! 🔥

Fire-Span™ Insulation

TABLE OF CONTENTS

FIRE EXTINGUISHERS

COSMIC EXTINGUISHERS: MULTI-PURPOSE CHEMICAL

General Data: These units contain specially fluidized and siliconized mono ammonium phosphate powder, which smothers and breaks the chain reaction on Class B fires, fuses and insulates Class A fires and is a non-conductor of electricity. Non-toxic.

Operation: Squeeze the lever, which opens the valve, allowing the chemical to be forced out. Upright squeeze grip operation approved to -65°F (-52°C).

Construction: Heavy-duty steel cylinder with rugged metal valve and siphon tube, replaceable molded valve stem seal, visual pressure gauge, pull pin and upright squeeze grip. Corrosion and impact-resistant powder coat finish.

CLASS A,B,C Fires

GALAXY EXTINGUISHERS: REGULAR DRY CHEMICAL

General Data: These models contain a siliconized sodium bicarbonate base, the traditional dry chemical. Cleanup after use is generally easy, because the chemical does not normally bake to a hot metal surface. Non-toxic.

Operation: Squeeze the lever, which opens the valve, allowing the chemical to be forced out. Upright squeeze grip operation approved to -65°F (-52°C).

Construction: Heavy-duty steel cylinder with rugged metal valve and siphon tube with replaceable valve stem seal, visual pressure gauge pull pin and upright squeeze grip.

CLASS B,C Fires

SATURN EXTINGUISHERS: CLASS A:K WET CHEMICAL

General Data: These units are ideal for commercial restaurant applications as a portable supplement to pre-engineered suppression systems. A low "pH" potassium acetate solution is discharged in a fine mist that provides excellent range while preventing splashing and creating an effective saponification foam-type blanket necessary for suppressing liquid cooking media fires.

Operation: Squeeze the lever, which opens the valve, allowing the chemical to be forced out.

Construction: Stainless steel cylinder with protective nozzle tip orifice seal and non-metallic nozzle tip finger guard. Industry standard horn and nozzle design. Name plate shows only the class "K" symbol.

CLASS A: K Fires.

All units meet the current requirements established by the National Fire Protection Association (NFPA) for NFPA10 (2013 version) "Standard for Portable Fire Extinguishers", and any other applicable NFPA standards. All units UL listed for US and Canada and meet local and national OSHA requirements for fire extinguishers.

CLASS A FIRES - PAPER, WOOD, CLOTH, ETC., WHERE QUENCHING BY WATER OR INSULATING BY DRY CHEMICAL IS EFFECTIVE.

CLASS B FIRES - FLAMMABLE LIQUIDS WHERE SMOTHERING ACTION IS REQUIRED.

CLASS C FIRES - LIVE ELECTRICAL EQUIPMENT WHERE THE NON-CONDUCTIVITY OF EXTINGUISHANT IS VITAL.

CLASS K FIRES

MERCURY EXTINGUISHERS: HALOTRON®

General Data: This model contains the clean extinguishing agent Halotron® 1, which is EPA-approved, government-accepted and specified. This agent discharges as a liquid, then quickly evaporates, leaving no residue to clean up afterwards. U.S. FAA-approved for use in airports. Electrically non-conductive.

Operation: Squeeze the lever, which opens the valve, allowing the chemical to be forced out. Temperature range from **-40°F to +120°F.**

Construction: Drawn steel cylinder with steel siphon tubes, power cone discharge stream, upright squeeze grip visual pressure gauge and corrosion-resistant paint finish.

CLASS A,B,C Fires

SENTINEL EXTINGUISHERS: CARBON DIOXIDE

General Data: This extinguisher contains liquid carbon dioxide under pressure.

Operation: Squeeze the lever, which opens the valve, allowing the carbon dioxide to be forced out. The discharge, which changes into a gas and appears as a smothering cloud of white snow, is then directed to the fire through a funnel-shaped horn. Electrically non-conductive.

Construction: Lightweight, high-pressure, aluminum cylinder with O-ring seal and straight thread all-metal valve fits all sizes. The Sentinel is absolutely rust-free and up to 30% lighter than CO2 units with steel cylinders.

CLASS B,C Fires

NEBULA EXTINGUISHERS: WATER MIST FOR ELECTRICAL

General Data: This non-toxic water mist extinguisher is ideal for Class A fires and where a potential Class C (electrical) hazard exists. Units shipped empty.

Operation: The unique misting nozzle provides safety from electrical shock, making this extinguisher ideal for use in telecommunications and cleanroom environments.

Construction: Non-magnetic cylinder and misting nozzle. For use in medical facilities.

Class A,C Fires

GRENADIER EXTINGUISHERS: PRESSURIZED WATER

General Data: The "water press" extinguisher contains water and compressed air. Units shipped empty.

Operation: Squeeze the lever, which opens the valve, allowing the water to be forced out. Upright squeeze grip operation.

Construction: Butt-welded 304-L stainless steel cylinder (eliminates all internal and external crevices). Rugged stainless steel discharge lever and fixed carry handle with visual pressure gauge, pull pin. Heavy-duty, brass, chrome-plated valve body with replaceable molded valve stem seal. UL labeled chemical engine hose.

CLASS A Fires

WHEELED EXTINGUISHERS: MULTI-PURPOSE AND REGULAR DRY CHEMICAL

General Data: Available in three size capacities with two choices of extinguishing agent and three different operational design configurations, the best match for your hazard protection needs can be accurately selected, maximizing the fire safety of your operation. Easily transportable through doorways and over rough terrain. See submittals for complete information.

Typical Uses: Offshore rigs, ship docks, refineries, chemical plants, aircraft ramps, processing plants, storage and loading areas.

Construction: DOT approved cylinders with chrome plated brass valve assemblies. Cylinders are manufactured to DOT specification 4BW240. Highly visible pressure-indicating gauge. Cylinders and carriages are shot blasted, primed and coated with powder paint finish that exceeds Underwriter's Laboratories 240 hour salt spray requirements. Hoses are included see submittal for sizes. All units are equipped with all weather semi-pneumatic 12.3 inch diameter, 3.5 inch wide tires that allows for easy movability through narrow doors and walkways by a single operator. Built to ANSI/UL 299 and 711 standards.

Other Extinguishant Types: Carbon Dioxide and Halotron™ wheeled units also available. See website for more information.

LOW PROFILE ORBIT EXTINGUISHERS: MULTI-PURPOSE ABC OR PURPLE K

General Data: Available for wall in both Multi-Purpose ABC or Purple K (FE10VB & FPK10VB) or available in cabinet mount version with Multi-Purpose ABC (FE10V). See JL's low profile 2100 series cabinet on pg. 14.

Operation: Squeeze the lever, which opens the valve, allowing the chemical to be forced out. Temperature range from -40°F to +120°F.

Construction: Corrosion-resistant, powder coated, tempered aluminum vessel with aluminum valve and siphon tube. Visual pressure gauge, stainless steel pull pin, handles, bracket and button hook.

FIRE EXTINGUISHER CABINETS

AMBASSADOR SERIES: STEEL TRIM AND DOOR

Door and Trim Construction: Cold rolled steel with white powder-coat finish standard. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch.
Trim Style and Depth: Trimless Recessed - for 5/8" depth drywall or 3/4" plaster. Recessed - 3/8" flat trim. Semi-Recessed - 1 1/4", 1 1/2" Square Edge or 2 1/2", 3", 4" (recessed pull), 4 1/2" Rolled Edge. Surface-mount has a square edge or optional rolled edge upon request. 1 3/4" face trim on frame and 1 1/4" trim on doors with glazing.
Tub: Constructed of cold rolled steel with white powder-coat finish standard.
Options at Additional Cost: Color door and trim or tub. Rolled Edge Surface Mount Cabinet. Custom colors. See page 24.
Fire-Rated Option Available: Yes

AMBASSADOR 1017F10 WITH OPTIONAL LETTERING (BLK OPTION)

AMBASSADOR 1013F10

ACADEMY SERIES: ALUMINUM TRIM AND DOOR

Door and Trim Construction: Clear anodized aluminum. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch.
Trim Style and Depth: Trimless Recessed - for 5/8" depth drywall or 3/4" plaster. Recessed - 3/8" flat trim. Semi-Recessed - 1 1/4", 1 1/2" Square Edge or 2 1/2", 3", 4" (recessed pull), 4 1/2" Rolled Edge. Surface-mount has a square edge. 1 3/4" face trim on frame and 1 1/4" trim on doors with glazing. Rolled edge models are constructed of mechanically-joined extrusions, except for models 1827 and 1027 which are die formed. Die formed corners provide an attractive, rounded edge - unique to the JL line of cabinets!
Tub: Constructed of cold rolled steel with white powder-coat finish standard. Surface-mounted models have clear anodized aluminum tubs.
Options at Additional Cost: Dark bronze anodized finish. See page 24. Aluminum tub for non-rated use (#180 clear anodized).
Fire-Rated Option Available: Yes

ACADEMY 1027V10 (DK BRONZE OPTION)

ACADEMY C1027V10

COSMOPOLITAN SERIES: STAINLESS STEEL TRIM AND DOOR

Door and Trim Construction: No. 4 Stainless Steel Trim and Door. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch.
Trim Style and Depth: Trimless Recessed - for 5/8" depth drywall or 3/4" plaster. Recessed - 3/8" flat trim. Semi-Recessed - 1 1/4", 1 1/2" Square Edge or 2 1/2", 3", 4" (recessed pull), 4 1/2" Rolled Edge. Surface-mount has a square edge or optional rolled edge upon request. 1 3/4" face trim on frame and 1 1/4" trim on doors with glazing.
Tub: Constructed of cold rolled steel with white powder-coat finish standard. Surface-mounted models have No 4 stainless tubs.
Options at Additional Cost: Custom stainless finishes - #6 satin, #7 polished, #8 mirror. Stainless tub with #4 finish. Rolled Edge Surface Mount Cabinet.
Fire-Rated Option Available: Yes

PANORAMA SERIES: FRAMELESS ACRYLIC DOOR

Door and Trim Construction: The Panorama features a frameless acrylic door of clear or opaque textured acrylic. The "stippled" texture of the opaque doors and exclusive aluminum backing protect the lettering, which is available in 3 colors and configurations. Clear doors also available. Flush cabinet doors are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. Trim is cold rolled steel with white powder-coat, clear anodized aluminum, or #4 stainless steel. 4" Rolled trim cabinets with P and Q style door have recessed pull to meet ADA projection standards.

Trim Style and Depth: Trimless Recessed - for 5/8" depth drywall or ¾" plaster. Recessed - 3/8" flat trim. Semi-Recessed - 1 1/4", 1 1/2" Square Edge or 2 1/2", 3", 4" (recessed pull), 4 1/2" Rolled Edge. Surface-mount has a square edge or optional rolled edge for steel or stainless steel upon request. 1 3/4" face trim on frame. See page 6.

Tub: Constructed of cold rolled steel with white powder-coat finish standard.

Fire-Rated Option Available: Yes

SMB SERIES: SURFACE-MOUNTED ACRYLIC BUBBLE AND STEEL CABINET

Door and Trim Construction: Cold rolled steel with six standard powder-coated colors to choose from - black, white, red, bronze, brass, silver or gray hammertone. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. Custom powder-coat finishes available upon request. See page 24.

Bubble: Acrylic bubble allows 180º extinguisher visibility. 2-1/2" projection.

Trim Style and Depth: This surface-mounted cabinet has a 3" rolled edge that forms a tub. 3" deep tub constructed of cold rolled steel with white powder-coat finish standard. 1 3/4" face trim on frame and 1 1/4" trim on door.

Extinguisher: Extinguisher must be mounted to back of tub using bracket.

Fire-Rated Option Available: No

Options at Additional Cost: Vertical or Horizontal Lettering. See Page 21.

FIRE EXTINGUISHER CABINETS

DECORLINE SERIES: ECONOMY STEEL OR ALUMINUM

The Decorline Series offers an Economical Solution for Interior or Exterior Applications. Select from a wide range of sizes that will fit most 2-1/2-10 lb extinguishers. Choose from 2 1/2", 3" or 4 5/8" trim or a surface-mounted design.

Construction: Cold rolled steel tub (interior) or aluminum (exterior) with white or gray hammertone powder-coat finish.
Trim: Models with trim feature 2" wide trim in either 2.5" or 4.25" depth, depending on model.
Door: Models with "AN" designation have slide in acrylic front secured by clips and tab for lock at top. All other models have door with continuous hinges and either solid door or door with acrylic window.
Fire-rated Option: No
Options at Additional Cost: Brass or Abus Padlock for "AN" models. Optional colors - See page 24. Wall signs and labels - See page 21.

FIRE EXTINGUISHER

14

SECURITY AND DETENTION CABINETS

JL security and detention cabinets for fire extinguishers, fire hoses or fire department valves are constructed to meet maximum security requirements in areas where fire protection is required. All recessed models have heavy-duty masonry anchors welded to the frame.

Door, Tub and Trim: 12 gauge steel with white powder coat finish, or 14 gauge #4 satin stainless finish. Flush cabinet doors are mounted in a 1" door stop and attached by a heavy-duty continuous hinge. Choose from 3 standard lock preps, or see lock options below for more choices.

Trim Style and Depth: 1-1/4" trim on frame non-rated, 1-1/2" trim on fire-rated frames. Available in Recessed with flat trim, Semi-recessed with 2-1/2" square trim or Surface-mount model with square edge. Heavy duty masonry anchors are welded to frame on all recessed cabinets.

Lock: Detention deadlock prep (DDP) provided standard. Optional lock preps at no charge are detention deadlock prep (DDP) or mortise cylinder prep (MCP).

Fire-Rated Option Available: Yes.

Options At Additional Cost: Vertical or Horizontal Lettering Pg 21, Optional Colors for Steel Cabinets. See Pg 24.

Lock Options At Additional Cost: Installed detention deadlock, slam lock, or mortise cylinder.   Mortise deadbolt prep (MDP) or with lock installed.

EMERGENCY SPECIALTIES

FREESTANDING AED CABINET STAND: 1480 SERIES

This Decorative Stand with a Surface-Mount Steel or Aluminum Cabinet can be an Attractive Addition to a Building's Décor by Coordinating Finishes and Paint Colors.

Construction: 52" structural steel tubing and steel baseplate. White epoxy or silver metallic finish standard, with custom colors also available.

DUAL CABINET FOR AED AND EMERGENCY OXYGEN: OLYMPUS 1900 SERIES

Provide More Lifesaving Equipment by Including Emergency Oxygen with Your AED.

Door & Trim Construction: CRS with white powder-coat finish, #4 stainless steel or clear anodized aluminum. 1-3/4" trim on face and door, mounted in a 5/8" door stop and attached by a continuous hinge. All models feature a clear acrylic window with graphics, zinc-plated handle and roller catch.

Trim Style & Depth: Surface-mount has a square edge. Recessed – 3/8" flat trim, Semi-Recessed – 1-1/2" square edge or 3" rolled edge.

Alarm: 85 db Commander (audible) alarm standard.

Oxygen: Accommodates up to "D" size cylinder. Available with patented Tx02 oxygen system that features easy-to-use automatic flow system.

Tub: White powder coated CRS. Fire-rated option available.

1913F12

WEATHER-RESISTANT AED CABINETS: 1463 SERIES

Protect Your AED From Moisture and Dust with this Durable Surface-Mount Cabinet.

Construction: This AED cabinet is constructed of galvanized steel and powder coated for a durable, water resistant finish. Stainless steel turn handle and fully gasketed.

1463

AUTOMATED EXTERNAL DEFIBRILLATORS: LS-AED SERIES

All Defibrillators Meet Local and National Standards for Emergency Care in Public Places and are FDA-Approved. JL has Several Models Available Which All Feature Automatic Heartbeat Detection, Require Minimum Training to Operate and Include a Training Video.

AED CABINETS TO FIT MOST BRANDS: 1400 LIFESTART SERIES

Designed to Accommodate Most AED's on the Market Today.

Door & Trim Construction: CRS with white powder-coat finish, #4 stainless steel or clear anodized aluminum. 1-3/4" trim on face. Formed door with 1-3/4" trim, mounted in a 5/8" door stop with zinc-plated handle and roller catch and continuous hinge. View AED through a clear acrylic window with graphics. Surface-mount has a **Trim Style & Depth:** square edge. Recessed – 3/8" flat trim, Semi-Recessed – 1-1/2" square edge or 3" rolled edge. **Alarm:** 85 db Commander (audible) alarm standard. **Tub:** White powder-coated CRS. Fire-rated available.

FIRE BLANKETS AND CABINETS

Fire Blankets & Cabinet: Royal fire blanket cabinets come in two basic designs. The Royal **9519S21** is a roller type for emergency use. The enclosed blanket is attached to the vertical roller and comes with arm loops to enable a person to wrap themselves in the blanket in one continuous motion. The Royal **9613S21** is a handy "drop" type with folded blanket. Both units are surface mounted. Each comes with a nominal 62" x 80", 2.75 pound, processed wool/synthetic fire blanket, which meets the Flammable Fabrics Act: Flammability of Clothing Textiles, Title 16, CFR1610.

FIRE BLANKET

9613S21

9519S21

BLANKET & EXTINGUISHER COMBINATION CABINET

Door & Trim Construction: CRS with white powder-coat finish, clear anodized aluminum or #4 stainless steel. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch.

Trim Style & Depth: Recessed - 3/8" flat trim, Semi-recessed - 1-1/2" square trim, 2-1/2", 4" or 4-1/2" rolled edge, Surface-Mounted - square edge. Rolled edge aluminum trims formed of extrusions. 1-3/4" face trim on frame and 1-1/4" trim on door.

Tub: CRS with white powder coat finish standard. Tub of surface mounted models are same material as trim.

Door Style: Full Glass, Vertical Duo, Solid Door.

Glazing: .09 Acrylic, tempered or WireShield™ filmed wire glass.

Shelf: Shelf is located 9" from the top of the cabinet, providing storage of the blanket above the extinguisher.

Blanket: Each cabinet includes a nominal 62" x 80" x 2.75 lb, processed Wool/synthetic fire blanket.

The Activar Construction Products Group (ACPG) is a dynamic group of 6 companies that combine resources, innovation and experience to serve the commercial construction industry. For over 70 years, JL Industries, Samson Products, RoofTop Accessories and Thomas Enterprises have manufactured and distributed some of the leading lines of fire protection products including a full line of fire extinguishers and cabinets, AEDs and cabinets plus valve and hose cabinets. They also offer rated and non-rated access panels, roof accessories, corner guards, detention products and entrance floor mats & gratings. Air Louvers offers a wide variety of metal vision lites & louvers, specialized glass, astragals, and metal edging for both wood and hollow metal doors. Hiawatha Inc. has provided high-quality architectural door hardware and components for over 50 years. Our centrally-located warehouses and 2 manufacturing locations offer quick shipping of our most popular products to most major metropolitan areas of the US. The two manufacturing locations in California and Minnesota that offer a both a full range of products adn custom manufacturing
