General Information

TERMS: 1% Ten Days from Invoice Date – Net 30 Days with approved credit. We also accept MasterCard, Visa, American Express and Discover. Cash discounts do not apply to credit card purchases. No COD orders accepted. Past due accounts will be placed on “HOLD” and may be released when account is in good standing. (late payment 1% deleted)

A \$7.00 Service Charge will be added to orders below \$25.00 Net Cost.

No exceptions, unless shipped by our USPS \$12 flat rate small package shipping program.

PRICES: Orders are accepted with the understanding they will be billed at prices in effect at the time of acceptance. All prices are in U.S. currency and supersede any price list published prior to January 2014. Special price quotations will be good for 30 days from date of issue.

SHIPMENTS: Shipments will be F.O.B. Salem, OH. Upon delivery to the freight company, shipments become the property of the purchaser, who assumes full risk for loss or damage in transit. Third party billing available only with special authorization by **BRASS Accents, Inc.** credit department.

FREIGHT ALLOWANCE: Any shipment over \$1200 net will be shipped F.O.B. Salem, OH freight prepaid within continental limits of the United States, (excluding Alaska and Hawaii). **BRASS Accents, Inc.** will select carrier on prepaid deliveries. Any difference in carrier costs due to customer requests will be billed to the customer.

CLAIMS: All must be filed within 7 days of receipt. It is the purchaser's responsibility to file claims with common carriers. For U.P.S. and FedEx claims of shortages or damages, the customer must notify **BRASS Accents, Inc.** within 48 hours and hold goods for inspection by an inspector.

Shortage claims for small items (screws, privacy pins, washers, spindles and similar smalls) will be replaced no charge, but with shipping cost billed to the customer.

RETURNS: Merchandise cannot be returned without written authorization and must be made within 30 days of merchandise receipt. All returns must be prepaid. Merchandise accepted by **BRASS Accents, Inc.** for credit is subject to a minimum 25% restocking. The credit will be a merchandise credit only. Sender is responsible for seeing that the merchandise being returned is packaged to avoid damage in transit. Authorized returns become void after 30 days from issue date of the Returned Goods Authorization. Special and custom order items and all Designer finishes (see descriptions below) are returnable with special authorization only. Custom finishes (see descriptions below) and custom kick plates are not returnable. Damage by customer, or in transit, will receive no credit.

DISCREPANCIES: Please notify us within 48 hours of any discrepancy in invoicing.

LIMITED WARRANTY: **BRASS Accents, Inc.** warrants for a period of one (1) year that our products will be free from defects in workmanship and materials. At our option, we will repair or replace free of charge any product found to be defective and subject to this warranty, provided it is delivered prepaid to us. This warranty does not apply to any defects or malfunctions resulting from improper installation or use. **BRASS Accents, Inc.** shall not be liable for any consequential damages. Please note: The limited warranty on all locks or latches is void if consumer uses them on knobs, levers, or trim other than original supplied by **BRASS Accents, Inc.** or the manufacturer. Finishes are warranted only until delivery from **BRASS Accents, Inc.** to the customer.

SPECIFICATIONS: We reserve the right to discontinue items or change specifications at any time without notice and without incurring any obligations. All sizes in this catalog are approximate.

STANDARD FINISHES: Lacquered & unlacquered polished brass, antique brass, satin nickel, oil rubbed bronze are subject to standard return policy. Please allow approx. 5 business days for shipment of stock items.

DESIGNER FINISHES: Antique nickel (pewter), antique copper, venetian bronze, aged brass, highlighted brass, and a variety of powder coat finishes including weathered black, weathered rust, oil rubbed bronze, gloss red, gloss white and gloss black. Designer finishes are returnable with special authorization. Please allow approx. 5 business days for shipment of stock items.

CUSTOM FINISHES: We gladly do custom finishes on our products as well as our finishes on other hardware. Custom finishes include custom finish specifications on our hardware as well as any finish on hardware not purchased from **BRASS Accents, Inc.** Pricing of custom finishes will be done by quote only, after receipt of product. Custom finishes are not returnable for any reason. Lead times are approximate and by quote only. Chrome is considered a custom finish and not eligible for return.

Knob and Lever Descriptions

“NEW” Oxford knob is from the Gothic School and can be traced back to the Russell & Erwin catalog of 1899. Unlike many of BRASS Accents designs where we have renamed our genuine reproductions, this was originally named the “Oxford”. Knob measures 2-1/4" dia.

“NEW” Lion Knob. BRASS Accents has wanted to introduce a lion knob for years but never found just what we wanted in size and style. To solve this issue we contracted with world renowned local sculptor & artist Tom Antonishak who crafted our very own Lion Knob! Check out Tom's other works at www.antonishak.com. Knob measures 2-3/4" dia.

Avalon Knob - This intricately cast oval knob can be seen on a plate similar to our L'Enfant Collection in the P & F Corbin Catalog of 1923. 1-11/16" x 2-3/4".

Champagne Lever - Designed in the Italian Renaissance style, this ornamental floral motif shows the delicate charm very much present during the Renaissance Period.

Chancellor Lever - This simple lever, popular from the mid 19th century, is extremely functional, and best of all, looks it's best in any of **BRASS Accents'** 12 standard finishes.

Charleston Knob - This ever-popular English rope design is a reproduction based on the Endicott pattern from Russell & Erwin, circa 1890's. Available in standard size 2-1/4".

Empire Round Crystal Knob From the Colonial Revival period of the 1930's and 1940s, this high quality pressed and polished crystal featuring a full round shape for greater feel and comfort. 2-1/4" dia.

Fairport Lever - Often referred to as being done in the Georgian style, this classic English rope lever has been popular with American lock set manufacturers since the mid 19th century.

Georgetown Oval Crystal Knob. This unique design even features the assembly detail of the Hopkins & Dickerson knob c. 1879 done in 24% solid lead crystal! 1-3/4" x 2-3/4".

Gladstone Lever - Done in the Art Deco, Post Modern style c. 1920 – 1940 this simple lever finishes best in “solid color” finishes like polished chrome, polished brass, satin nickel and oil rubbed bronze.

Hartford - Lead Crystal Knob From the Victorian Era circa 1800s-1940s, this high quality pressed and polished crystal featuring wide facets for light reflection has more clarity than ordinary glass. 2-3/8" dia.

Helios Knob - Based on designs from the Rococo period c. 1875 this deeply modeled scrollwork provides a very strong presence. 2-1/2" dia.

Kinsman Lever - This crystal lever, first made popular in the early 20th century, provides a unique look in a simple lever design. Now reproduced in molded glass, commonly referred to as “depression era glass”, and although attractive, even the original pieces have little collector's value.

Lafayette Knob - Designed in the French Regency style c. 1710-1730 following the reign of Louis XIV. Curvilinear shapes make the composition flow freely. 2-3/8" dia.

Laurel Knob - A unique **BRASS Accents'** mainstay, this jumbo (3") knob is a reproduction based on a Niles Chicago Co. design, c.1880's. The detailing is a beautiful mix of the organic and the stylish, bringing the term ‘rural charm’ into its own. Best with 2-3/4" backset.

MacKenzie Lever - This lever done in the contemporary style in the early 20th century, but reflects the more romantic approach of the neo-French look while offering the simplicity craved by the federal American Period.

Maltesia Knob - A reproduction based on the Reole pattern of Reading Hardware Company c. 1910. Heavy and dramatic from a time when homes were designed to accommodate such elegance. 2-1/2" dia.

Knob and Lever Descriptions

Netropol Knob - Enter the modern age with this mushroom shaped knob style made popular by the Earle Hardware Co. around 1935! Simple design, yet goes with many back plate styles. Finishes well in solid finishes like Oil Rubbed Bronze, Polished Brass, Satin Nickel, and Weathered Finishes. 2-1/4" dia.

Newport Knob - Is a larger version of the Charleston knob based on the Endicott pattern from Russell & Erwin, circa 1890's. Available in 2-1/2" diameter.

Ribbon & Reed Knob - This knob is done in the Louis XVI style c. 1774-1789. The style really began in the second part of the reign of Louis XV and expanded over the entire reign of Louis XVI. The use of the ribbon and reed elements can be traced to the Greek ruins of Pompeii, brought to France from Greek archaeological sites around 1760. 2-1/4" dia.

Salem Lever - This low profile lever is specifically designed in combination with our 2" backset latch for use on swing patio doors, including Atrium doors with sliding screens. Matching 2" backset deadbolts also available. Available in all finishes.

Savannah Fluted Oval Crystal Knob
This is a brand new design based roughly on Art & Crafts pressed glass 12 flute knob of the early 1900's. Our new 24% lead crystal multi-facet knob reflects light more effectively than the inexpensive pressed glass originals as well as providing a more comfortable, fuller feeling oval knob. 1-3/4" x 2-3/4".

Sunburst Knob - Unobtrusive but visually rewarding for people who notice fine detail. Simple elegance in a knob design made popular around the 1930's. This Whimsical sunburst design really comes alive with any of the **BRASS Accents**' antique finishes as well as Venetian Bronze. 2-5/16" dia.

Victorian - Fluted Glass Knob: This knob, patterned after the original Penn Hardware fluted knob in the Arts & Crafts period of the 1920's. This design remains in vogue because of the many facets available to reflect light. 2" dia.

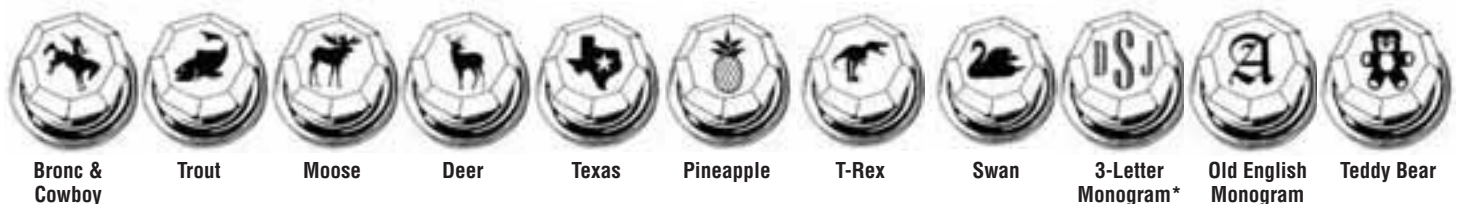

Windsor Knob - Commonly referred to as the "egg knob," this design is popular because of the easy operation the oval shape provides and ability to function well in narrow backset applications. 1-3/8" x 2-5/16".

Monogramming and Decorative Etched Lead Crystal Door Sets

Featuring **BRASS Accents** Lead Crystal & Solid Brass Knob Sets engraved & highlighted with Western & Wildlife Characters and available in the full range of **BRASS Accents** finishes. Characters available in brass or black highlight on **BRASS Accents** full range of 12 finishes for the ferrule and bases. The full line of Western & Wildlife knobs is available for a list price of \$12 per knob. (plus the hardware & finish)

Completely Unique in the Door Hardware Industry, **BRASS Accents** Engraved & Highlighted Designer Knobs feature Solid Brass ferrules and Rosettes.

*Three-letter monogramming requires a \$24 list set-up charge.

L'Enfant Collection

Featuring 3" x 23" Plate outside, 3" x 16-1/8" Plate inside.

- Reproduction based loosely on the Russwin design made popular in the 1920's this piece features the classical dolphin and cornucopia under a strong transom arched top.
- Available in the "pitcher handle" grip handle set on the outside and the corresponding 16-1/8" L'Enfant plate on the inside and available in Single or Double Cylinder deadbolt and a wide range of Mortise body functions with 14" L'Enfant plate on the inside.
- This collection is especially dramatic in the antique finishes including antique brass, copper and nickel.
- Center to center is 5-1/2".
- All **BRASS Accents** finishes are hand-rubbed and assembled in USA.
- Sold as complete sets including all mounting hardware.

2-1/2" Projection

Arts & Crafts Collection Featuring 2-1/2" x 6-1/2" Plates

- Arts & Crafts was an international design movement that flourished between 1860 and 1910, especially in the second half of that period, continuing its influence until the 1930s.
- The distinctive window-pane pattern, originally known as Bastille, was designed by Pacific Hardware of Los Angeles around 1912.
- Manufactured especially for modern, pre-drilled doors, installation is quick and easy for professionals or home owners alike.
- Hand-hammered look designs in brass look best with a mellow, aged patina of our new Aged Brass finish or the rich soft tones of our Venetian Bronze.
- Sizes available in 2-1/2" x 6-1/2" and 2-1/2" x 11-1/4"
- All **BRASS Accents** finishes are hand-rubbed and assembled in USA.
- Sold as complete sets including all mounting hardware.

Palladian Collection Featuring 3" x 12" Plates

The term "Palladian" comes from Andrea Palladio, a Renaissance architect whose work inspired some of the greatest buildings in Europe and the United States, most notably in the buildings designed by Thomas Jefferson, including his own home, Monticello. The classic Palladian shape is a central semicircular arch flanked on each side by strong rectangular pillars.

- This classic Baroque plate shows best in the solid finishes like polished brass, polished chrome, oil rubbed bronze, satin & polished nickel.
- Standard center to center on entry sets is 5-1/2".
- All **BRASS Accents** finishes are hand-rubbed and assembled in USA.
- Sold as complete set including matching mounting hardware.

The Americana

Proudly Made in the USA

This elegant solid brass door knocker is a precise replica from one of the most famous door knockers in the United States, adorning the front door of the Blair House in Washington, D.C., near the White House.

For two hundred years, the Blair House has been a guest residence for the famous and the infamous; from statesmen to scholars, scientists to scoundrels, from Union heroes to Confederate Generals.

A04-K5700 AMERICANA DOOR KNOCKER (USA) 9"

This knocker is unusually heavy and detailed with meticulous old world craftsmanship and beautifully finished. A precise replica from one of the most famous door knockers in U.S. History. Projection 2-7/16", knocker width 4-1/8", center to center 5-1/4".

Finishes

BRASS Accents Stock Finish:

Polished Brass finish is solid brass that is polished and lacquer coated to prevent tarnishing over time. Common finish codes for polished brass are 605 and US3. Also available un-lacquered that can be waxed or allowed to age naturally.

Group 1:

Antique Brass finish is solid brass which has been chemically darkened and highlighted with an abrasive to simulate aged brass. Antique Brass finish is typically a medium brown with golden undertones, and can vary significantly from one product to another. To ensure that the finish is right for you, samples should be ordered in advance. Common finish codes for antique brass are US5 and 609.

Satin Brass finish is a brass that has been dulled and gloss lacquer coated. Common finish codes for satin brass are US4 and 606.

Oil Rubbed Bronze finish is a chemically darkened surface designed to simulate aged bronze. This finish is very dark and varies from a deep chocolate brown to a dark gray and usually has reddish undertones. There are quite a variety of interpretations of this finish in the hardware industry and all oil rubbed bronze finishes do not match. To ensure that the finish is right for you, samples should be ordered in advance. Common finish codes for oil rubbed bronze are US10B and 613.

Aged Brass much more realistically replicates the look of actual antique brass hardware. This finish is hand done in the USA by our skilled metal finishers and offers the imperfections and soft patina look of actual antique hardware. Finish code 486.

Highlighted Brass is a special finish designed to show off the exquisite detail of our hardware while allowing customer to maintain a polished brass finish. Finish code 610.

Powder Coat Finishes. BRASS Accents provides a wide assortment of powder coat finishes including Weathered Black and Rust which are satin textured finishes designed to simulate iron hardware, Oil Rubbed Bronze which looks like our natural ORB, but offers far greater durability plus designer colors including Gloss Red, Gloss White, and Gloss Black. Finish codes are Weathered Black 622, Rust 770, ORB 613PC, RD, WT, and GB.

Group 2: (limited eligibility for return)

Satin Nickel finish is nickel plating on brass that has been satin finished with an abrasive and lacquer coated. Common finish codes for satin nickel are US15 and 619.

Antique Copper finish is copper plated brass, chemically darkened to simulate aged copper. Antique Copper finish is typically a medium black with copper undertones, and can vary significantly from one product to another. To ensure that the finish is right for you, samples should be ordered in advance. Common finish code for antique copper is 657.

Antique Nickel (Pewter) finish is nickel plating on brass that has been dulled and darkened to simulate pewter. This may be referred to as pewter or antique nickel interchangeably. Common finish codes for antique pewter are US15A and 620.

Polished Nickel finish is nickel plated brass, polished to a high shine and clear gloss lacquer coated. This is a warm bright finish without the harsh look of chrome. Finish code 618.

Venetian Oil Rubbed Bronze finish is applied over copper plated brass and is a chemically darkened surface designed to simulate aged bronze. This finish is very dark and varies from a deep chocolate brown to a dark gray and has distinct copper highlights and undertones. All oil rubbed bronze finishes can be ordered actually oil rubbed if requested, but they are typically matte lacquer coated. To ensure that the finish is right for you, samples should be ordered in advance. Common finish code for venetian oil rubbed bronze is 613VB.

BRASS Accents Custom Finishes: (NOT eligible for return)

Trivalent Chrome is a new "green" chrome finish that eliminates the health and environmental concerns associated with hexavalent chrome. Trivalent chrome has the same tough, highly reflective, slightly blue cast of traditional hexavalent chrome. Common finish codes for chrome are 625 and US26. BRASS Accents does custom matching to your finish sample on a quote basis only. We also do finish work on your brass hardware, again on a quote only basis.

BRASS Accents Premium Plus 10 Year Clear Finish: Most solid brass products are available with our Premium Plus Powder Coat Clear Finish for added durability. This is available for a 10% up charge, but is not available on kick plates or mail slots.
