Our History

In 1929, John Corby designed a non-electrical, horizontal trouser press in a room above a garage in Windsor. Eighty years on the company he founded, Corby of Windsor, continues to service the world's top hotels providing over 200 quality products for the hotel and hospitality industry.

Our Promise

Many of our products have been manufactured by Corby of Windsor with the quality and value you would expect from us. These products are clearly indicated in the brochure using the Corby Manufactured mark.

We understand you have increasingly less time to source from a variety of suppliers so we aim to provide a comprehensive selection of high quality products.

Any product featured, but not manufactured by us, will meet the level of quality to be expected from a Corby Approved product.

Caring for the environment is important to Corby of Windsor.

Products with environmentally friendly features will be highlighted with our Eco Friendly Stamp.

We are delighted to extend our manufacturer guarantee to 3 years.

Look out for the 3 year guarantee mark for applicable products.

Along with the world famous Corby Trouser Press, our wide range of products includes irons and ironing centres, kettles, hair dryers, minibars, safes, the Corby Spa range of toiletries and many more guest room amenity products. All of the products in this brochure have been selected with the hotel guest room in mind.

Many of our products are designed with hotel specific features such as auto cut off on our range of irons, providing both a safe and environmentally friendly product. All of our products can be purchased online and most are available with a next day delivery service.

Design & Manufacture

Corby of Windsor is extremely proud of our all encompassing approach to our product range, from creation through to delivery. Our in house team of product designers have one goal to design the best hotel products for the hotel market.

Throughout the product development process our team will work closely with both UK and international hoteliers and distributors to create products specifically for the hotel guest room, always ensuring specific requirements are met. Corby branded products are designed and engineered in house and tested to international standards.

Shipping globally from our wholly owned manufacturing sites in both the UK and China means we have strong relationships with many of the leading international freight forwarders. This enables us to service orders quickly, efficiently and cost effectively; savings which are then passed on to you.
