FINALLY... A *FAST* HAND DRYER

THREE TIMES FASTER - DRIES HANDS IN 10 TO 15 SECONDS • USES 80% LESS ENERGY
95% COST SAVINGS VS. PAPER TOWELS • GREENSPEC APPROVED • HELPS QUALIFY FOR LEED CREDITS

THE FINEST HAND AND HAIR DRYERS AVAILABLE

Excel Dryer, Inc. manufactures the industry's finest quality hand and hair dryers. For more than 40 years, Excel's full line of **American-made** dryers has provided cost-effective hand and hair dryers for schools, hospitals, airports, service stations, correctional facilities, restaurants, stadiums, movie theaters, health clubs, office buildings, factories, hotels and many other commercial facilities.

At Excel, quality is a way of life. Nothing else is acceptable. This philosophy has always guided us in developing products that are dependable, easy to install or service, and satisfying to use.

Excel Dryer, Inc. is headquartered in East Longmeadow, Massachusetts. Our products are marketed through an established network of sales representatives who call on more than 4,000 distributors nationally. Excel Dryers can be specified in 50hz or 60hz and from 100V to 277V for distribution worldwide.

Why Buy Excel Hand Dryers

Excel Dryer Leads the Industry in Quality and Customer Service

- 95% Cost Savings vs. Paper Towels
- Source Reduction Alternative
- Good For The Environment
- Reduced Vandalism
- Best Warranty
- Labor Savings
- Promotes Hygiene
- Easy Access For The Disabled

The Excel Dryer Difference

- All Excel Dryer models are made in the USA. 
Made in USA
- We design and manufacture our own infrared-activated controls and adjustable electronic timers.
- We do our own chrome plating to produce a flawless mirror-like finish.
- We wind our own heating elements.
- We offer the industry's best warranty: Including a 10-year UNLIMITED Warranty on all Hands On® models (includes damage due to accidents, misuse or vandalism).
- Excel Hand Dryers do not need service centers – most units can be repaired in the field because parts are modular and easy to change out.

Good for the Environment

Do you know the facts?

Seventeen trees are consumed to make one ton of paper.

One ton of paper production pollutes 20,000 gallons of water.

One ton of paper consumes three cubic yards of landfill.

Average cost of paper is 2 cents per hand dry using paper towels vs. 1/10th of a cent using dryers

EXCEL DRYER Product Line Categories

XLERATOR® SERIES

Finally... A FAST Hand Dryer!

Excel Dryer has made a breakthrough in hand drying technology. The XLERATOR hand dryers deliver 3 TIMES FASTER hand drying power. A user's hands will be thoroughly dry in only 10 to 15 seconds. The XLERATOR also USES 80% LESS ENERGY than other hand dryers and is a great source reduction alternative, delivering a 95% Cost Savings vs. Paper Towels. XLERATOR also is the first hand dryer to receive GreenSpec® Approval and helps qualify for LEED® credits.

CAST COVER SERIES

HANDS ON® - Push Button Activated Hand and Hair Dryers

Excel's Hands On hand dryers boast a longstanding reputation for quality and reliability. Hands On hand dryers are engineered to provide twice the service-free life of other hand dryers, and are backed by an industry best Ten Year Unlimited Warranty, including damage due to accidents, misuse or vandalism. All Hands On series models can be specified as hair dryers.

HANDS OFF® - Automatic Sensor Activated Hand Dryers

Excel's Hands Off hand dryers provide exceptionally quiet operation with maximum strength and durability. Performance is backed by a Ten Year Limited Warranty on the hand dryers. (Five years on control assembly and sensor). Surface and semi-recessed wall mounting model options available.

LEXAN® SERIES

Excel's reputation of providing products with superior performance combines with the economic benefit of this dryer series for maximum value. Lexan series surface mounted hand dryers are constructed with a one piece molded Lexan cover. They are available in push button or fully automatic models.

Quantity Recommendations

One dryer for every two washbasins is sufficient for most applications. If restroom traffic is unusually heavy, we suggest one dryer per washbasin in small installations and two dryers for every three washbasins in larger installations. When a 54" wash fountain is used, we suggest four to five dryers.

Underwriters Laboratories, Inc. Listed

All internal parts are manufactured according to Underwriters Laboratories, Inc. requirements. Excel dryers are listed under the re-examination services of Underwriters Laboratories, Inc.

Excel Dryer has been awarded a contract by the GSA (General Services Administration) which offers special pricing to all Federal Government Agencies.

XLERATOR® Hand Dryers

After 6 years in the marketplace **XLERATOR** has received numerous awards and designations and is being specified in many high profile places.

XLERATOR is now considered . . . **THE NEW INDUSTRY STANDARD!**

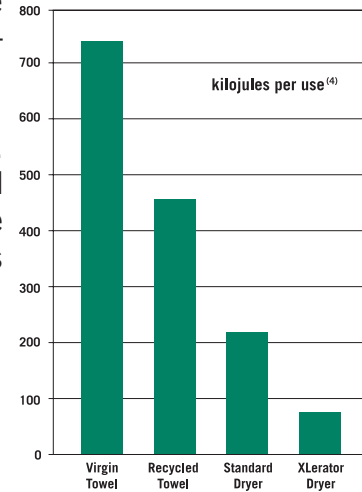

The XLERATOR is the first hand dryer ever to be awarded GreenSpec approval by the editors of Environmental Building News. XLERATOR meets a number of GreenSpec standards: it conserves energy, has low maintenance requirements and reduces waste. More simply put, XLERATOR makes your restroom better for the planet.

The XLERATOR is also the first hand dryer to help qualify for LEED credits. LEED stands for Leadership in Energy and Environmental Design. All hand dryers save trees and are a great source reduction alternative, but the XLERATOR also saves energy! This is why XLERATOR helps facilities qualify for LEED-NC, LEED-EB and LEED-CI Credits in two categories:

- EA Credit 1 - Optimize Energy Performance
- EA Prerequisite 2 - Minimum Energy Performance
(LEED-CI: EA Credit 1.4 - Optimizing Energy Performance, Equipment and Appliances)

XLERATOR clearly outperforms conventional dryers but how does it compare to paper towels?

The results, as illustrated in the table and chart to the right, show that just on the basis of energy use electric hand dryers are far better, without even considering the many other environmental impacts of the manufacture and disposal of paper, including resource depletion, water pollution, and solid waste.

Description	Mj/kg (1)	towels/kg (2)	kW draw	time (sec) (3)	kJ/use (4)	Cost per 1,000 uses (5)
Virgin towel	131	352	—	—	743	\$23.00
Recycled towel	81	352	—	—	760	\$23.00
Standard dryer	—	—	2.2	30	222	\$1.47
XLERATOR	—	—	1.5	15	76	\$0.50

**The Leadership in Energy and Environmental Design (LEED®) Green Building Rating System™ is a/the nationally accepted benchmark for the design, construction, and operations of high performance green buildings.*

LEED was developed by the U.S. Green Building Council (USGBC), a nonprofit working to transform the building industry to sustainable practices.

XLERATOR is receiving a lot of attention...

Awards

- Innovator of the Year (California Restaurant Association)
- Top Ten Green Product (Environmental Building News)
- Best Energy Savings Product (Electro Expo)
- Best New Product - Energy Category (IAAPA Show)
- And many more...

Model XL-GR
Surface-mounted, Automatic,
Graphite Textured Painted Cover

Features

- 3 TIMES FASTER - Dries Hands in 10 to 15 Seconds
- Uses 80% Less Energy than other Hand Dryers
- 95% Cost Savings vs. Paper Towels
- Source Reduction Alternative
- Improves Hygiene in Restrooms

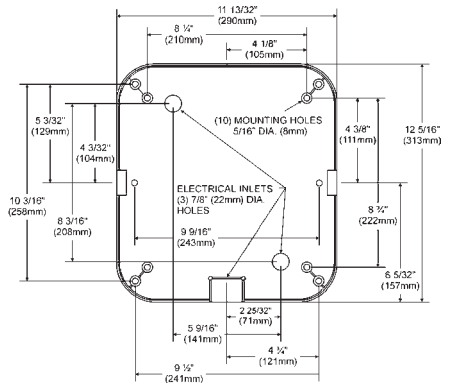

Model XL-W
Surface-mounted,
Automatic,
White Epoxy Painted
Cover

Model XL-C
Surface-mounted,
Automatic,
Chrome
Plated Cover

Model XL-BW
Surface-mounted,
Automatic,
White Thermoset (BMC)
Cover

Model XL-SB
Surface-mounted,
Automatic,
Brushed Stainless
Steel Cover

Note: Custom Colors Available (visit our web site for more information)

SPECIFICATIONS

Dimensions: 11 3/4" lg. X 12 11/16" high X 6 11/16" deep (298 mm x 322 mm x 170 mm)
Weight: XL-BW - 13 lbs. (5.91 kgs.) XL-SB 14 lbs. (6.36 kgs.) XL-W, XL-GR, XL-C - 16 lbs. (7.3 kgs.)

Construction

- Cover shall be one of the following: **Die-cast zinc alloy** - One-piece, heavy-duty, rib-reinforced, lightweight, unbreakable, rustproof and all exposed surfaces shall be bright chrome plated or finished with chip-proof, electrostatically applied epoxy paint. **White thermoset (BMC)** - Fiberglass re-enforced bulk molding compound. **Stainless Steel** - with a brushed finish. All covers will be fastened to a wall plate by two chrome plated tamper-proof bolts.
- Wall plate shall be equipped with (3) 7/8" (22 mm) diameter holes, one of which shall be suitable for use with surface conduit, for ease of wiring.
- All internal parts shall be coated according to Underwriters' Laboratories, Inc. requirements.
- Entire mechanism shall be internally grounded.
- Optional recess kit includes a wall box (22 ga) and dryer mounting plate (16 ga) made from 18-8 Type 304 brushed stainless steel. A stainless steel tether is connected to the dryer mounting plate to hold the dryer in position when servicing.

Mechanism

- Motor shall be a thermally protected, series commutated, through-flow discharge vacuum motor/blower (5/8 hp / 20,000 rpm) which provides air velocity of 16,000 lfm (linear feet per minute) at the air outlet and 14,000 lfm at the hands (4 inches [102 mm] below air outlet).
- Heating element (900 w) is constructed of Nichrome wire and mounted inside the blower housing, thereby being vandal proof. It shall be protected by an automatic resetting thermostat, which shall open whenever air flow is cut off and shall close when flow of air is resumed. It shall produce an air temperature of up to 135°F (57°C) at a 72°F (22°C) ambient room temperature at the hands (4 inches [102 mm] below air outlet).
- Control assembly is activated by an infrared optical sensor located next to the air outlet. The dryer shall operate as long as hands are under the air outlet. There is a 35-second lockout feature if hands are not removed.

Limited Warranty

The dryer shall be guaranteed to be free from defects for a period of five (5) years. Warranty shall include labor performed at factory as well as the repair or exchange of defective parts, at manufacturer's option.

Recess Kit - To Meet ADA Special Requirements.

Dimensions: 26" lg. X 17 1/8" wide x 3 1/4" deep
(660 mm x 435 mm x 83 mm)
Weight: 13 lbs. (5.91 kgs.)

Note: Bottom of recessed wall box should be 10 1/2" (27 cm) below suggested mounting height for dryer (see chart).

MODEL NO.	COVER FINISH	MOUNTING	TIME CYCLE	DRYER TYPE
XL-W	White	Surface	Automatic	Hand Dryer
XL-C	Chrome	Surface	Automatic	Hand Dryer
XL-GR	Graphite	Surface	Automatic	Hand Dryer

SURFACE MOUNTED

RECESSED MOUNTED

Excel's Hands On® push button activated dryers lead the industry for quality and reliability. The Hands On series is engineered to provide twice the service free life of other dryers and is backed by a TEN YEAR UNLIMITED WARRANTY!

Features

Made in USA

- Maintenance-free brushless motor, capacitor initiated for quick starts.
- Air nozzle revolves a full 360 degrees providing easy hand and face drying.
- Air nozzle can be fixed in a downward position by a simple on-sight adjustment.
- Covers are available in either a white epoxy paint or a chrome-plated finish.
- Custom colors also are available.
- All Hands On model dryers can also be specified to serve as hair dryers, ideal for health clubs, locker-room facilities, resorts and private washrooms.

SPECIFICATIONS

Construction

- Dryer cover shall be one-piece, heavy-duty, rib-reinforced die-cast zinc alloy. It shall be lightweight, unbreakable, rust-proof, fitted with a chrome plated die-cast zinc alloy push button, a fixed or 360° revolving die-cast, chrome plated, zinc alloy nozzle.
- All exposed surfaces shall be bright chrome plated or finished with chip-proof, electrostatically applied epoxy paint.
- Surface-mounted covers shall be fastened by two flat head, recessed tamper-proof bolts to a cast zinc alloy wall pallet and shall be equipped with three (3) 7/8" (22mm) diameter holes, one of which shall be suitable for use with surface conduit. Recessed covers shall be fastened by four flat-head recessed, tamper-proof bolts to wall box and shall be equipped with two (2) 7/8" (22mm) diameter holes for ease of wiring. Wall plate shall be fastened to wall box by four concealed 1/4" (6mm) mounting bolts.
- Cover shall be equipped with an air inlet opening on the bottom of the casting and covered with a vandal resistant metal protective grill to prevent the entry of foreign objects. A chrome plated, die-cast zinc alloy outlet nozzle on the front of the cover shall permit a full flow of warm air when in operation, and shall be protected by a cast alloy grating fixed into the blower housing.
- All internal parts shall be coated according to Underwriters' Laboratories, Inc. requirements.
- Entire mechanism shall be internally grounded.

Mechanism

- Motor shall be capacitor-initiated, brushless type (for longer life and quiet operation) 1/10 hp, 3450 rpm with self-lubricated bearings. It shall be insulated

SURFACE MOUNTED

Dimensions: 10 3/4 lg. x 8" high x 7" deep (273 mm x 203 mm x 178 mm)
Weight: 18 lbs. (8.1 kgs.)

Dimensions: 12 1/2 lg. x 9 3/4 high x 4" deep (318 mm x 248 mm x 102 mm)
Weight: 20 lbs. (9.0 kgs.)

- by a resilient mounting and shall be protected by a self-resetting thermal protector. For 50 hz applications, motor shall be a universal 1/10 hp, 4200 rpm at rated load, with sealed lubricated ball bearings. Motor shall be insulated by resilient mounting and is thermally protected.
- Fan shall be a large, single inlet centrifugal type for maximum capacity, and shall deliver 150 cfm Fan shall be mounted directly on the motor shaft, and fan and motor unit shall be insulated from dryer with a resilient rubber mounting to obtain maximum dampening effect.
- The heating element is constructed of Nichrome wire and side mounted on the blower housing, thereby being vandal proof. It shall be protected by an automatic resetting thermostat which shall open whenever air flow is cut off and shall close when flow of air is resumed. The element shall produce an air temperature of 145°F/63°C at a 72°F/22°C ambient room temperature at the outlet.
- The timer is a state of the art electronic device with an adjustable time cycle. For hand dryers, timers are set at 30 seconds and at 3 minutes for hair drying.

Unlimited Warranty

All parts on Hand and Hair Dryers shall be warranted against defective material and/or workmanship for a period of ten years. Warranty shall include labor performed at factory as well as the repair or exchange of defective parts at manufacturer's option, and shall include damage due to accidents, misuse or vandalism.

SPECIFICATIONS

Construction

- A. Dryer Cover HO-IW & HO-IC Models: shall be one piece, heavy-duty, rib-reinforced die-cast zinc alloy. It shall be lightweight, unbreakable, rustproof and all exposed surfaces shall be bright chrome plated or finished with chip-proof, electrostatically applied epoxy, and fastened by two chrome plated tamper-proof bolts to a cast zinc alloy wall plate.
- R76-IW & R76-IC Models: shall be one piece, heavy-duty, rib-reinforced die-cast zinc alloy. It shall be lightweight, unbreakable, rustproof and all exposed surfaces shall be bright chrome plated or finished with chip-proof, electrostatically applied epoxy, fitted with a fixed, die-cast, chrome plated, zinc alloy nozzle.
- B. The wall plates for surface mounted models shall be equipped with (3) 7/8" (22 mm) diameter holes one of which shall be suitable for use with surface conduit, for ease of wiring.
- Recessed covers shall be fastened by four flat-head, recessed, tamper-proof bolts to wall box. Wall plate shall be fastened to the wall box by four concealed 1/4" (6mm) mounting bolts, and shall be equipped with two knockouts for ease of wiring.
- C. HO-IW & HO-IC Models: shall have a chrome plated, die-cast zinc air outlet which shall be fixed to the blower housing and shall be of a design that will not allow foreign objects to enter the dryer. R76-IW & R76-IC Models: shall be equipped with an air inlet opening on the bottom of the casting and covered with a vandal resistant metal protective grill to prevent the entry of foreign objects. A fixed chrome plated, die-cast zinc air outlet nozzle on the front of the cover shall permit a full flow of warm air when in operation, and shall be protected by a cast alloy grating fixed into the blower housing.
- D. All internal parts shall be coated according to Underwriters' Laboratories, Inc. requirements.
- E. Entire mechanism shall be internally grounded.

SURFACE MOUNTED

RECESSED MOUNTED

Dimensions: 12 1/2 lg. x 9 3/4" high x 4" deep 318 mm x 248 mm x 102 mm
 Weight: 20 lbs. (9.0 kgs.)

Mechanism

- A. Motor shall be capacitor-initiated, brushless type (for longer life and quiet operation) 1/10 hp, 3450 rpm with self-lubricated bearings. It shall be insulated by a resilient mounting, and shall be protected by a self-resetting thermal protector. For 50 hz applications, motor shall be a universal 1/10 hp, 4200 rpm at rated load, with sealed lubricated ball bearings. Motor shall be insulated by a resilient mounting and is thermally protected.
- B. Fan shall be a large, single inlet centrifugal type for maximum capacity, and shall deliver 180 cfm (150 cfm for Recessed Model) Fan shall be mounted directly on the motor shaft, and fan and motor unit shall be insulated from dryer with a resilient rubber mounting to obtain maximum dampening effect.
- C. The heating element is constructed of Nichrome wire and side mounted on the blower housing, thereby being vandal proof. It shall be protected by an automatic resetting thermostat, which shall open whenever air flow is cut off and shall close when flow of air is resumed. It shall produce an air temperature of 145°F/63°C at a 72°F/22°C ambient room temperature at the outlet.
- D. The control assembly is activated by an infrared optical sensor located next to the air outlet. The dryer shall operate as long as hands are moving under the air outlet. There is a 50 second lockout feature, if hands are not removed.

Limited Warranty

The dryer shall be guaranteed to be free from defects for a period of ten years, except for five years on the control assembly and sensor. Warranty shall include labor performed at factory as well as the repair or exchange of defective parts, at manufacturer's option.

LEXAN Series AUTOMATIC AND PUSH BUTTON HAND DRYERS

AUTOMATIC SENSOR

PUSH BUTTON

Combine Excel's reputation of superior performance with the economic benefit of this dryer series and get maximum value for your investment!

Features

- Economical – The cost of energy to operate a dryer is less than 10% of the cost of paper towels. In addition, the following costs are eliminated: ordering, storing, replenishing dispensers, collecting, and disposing of paper towels.
- Maintenance-free brushless motor, capacitor initiated for quick starts.
- Durable Construction – These surface mounted dryers are constructed with a one-piece molded Lexan cover.
- Style Options – Select from either the traditional push button activated or the automatic sensor activated models.
- Vandal Proof – Features include tamper-proof bolts and a side mounted heating element inaccessible through the air outlet.

SPECIFICATIONS

Construction

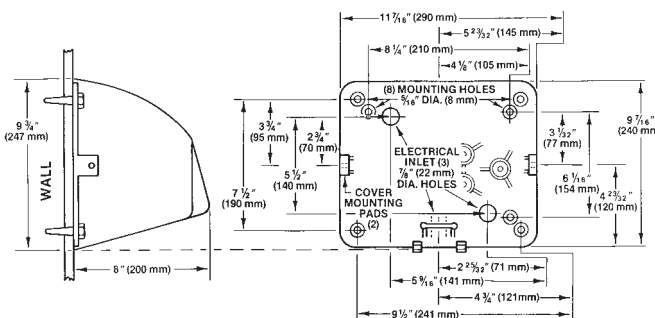

- Cover shall be a one-piece molded Lexan® 940, with the color uniformly throughout and fastened by two chrome-plated tamper-proof bolts to a cast zinc alloy wall plate.
- Wall plate shall be equipped with (3) 7/8" (22 mm) diameter holes. One of which shall be suitable for use with surface conduit, for ease of wiring.
- Dryers shall have a chrome-plated, die-cast zinc blower vent/grill (air outlet) which shall be fixed to the blower housing and shall be of a design that will not allow foreign objects to enter the dryer.
- All internal parts shall be coated according to the Underwriters Laboratories, Inc.
- Entire mechanism shall be Internally grounded.
- HO-BL Model: Includes a chrome-plated push button assembly mounted onto front of cover.

Mechanism

- Motor shall be a brushless 1/10 hp, 3400 rpm with self-lubricating bearings. It shall be insulated by a resilient mounting and shall be protected by a self-resetting thermal protector. For 50 hz applications, motor shall be a universal 1/10 hp, 4200 rpm at rated load, with sealed lubricated ball bearings. Motor shall be insulated by a resilient mounting and is thermally protected.
- Fan shall be a large, single inlet centrifugal type for maximum capacity and shall deliver a minimum of 180 cfm. Fan shall be mounted directly on the motor shaft, and fan and motor unit shall be insulated from dryer with a resilient rubber mounting to obtain maximum sound and vibration dampening effect.
- The heating element of Nichrome wire shall be side mounted on the intake, thereby being vandal proof. It shall be protected by an automatic resetting circuit breaker (25 Amp), which shall open whenever air flow is cut off and shall close when flow of air is resumed. It shall produce an air temperature of approximately 145°F (63°C) at 72°F (22°C) ambient room temperature at the outlet.
- HO-IL Model: A control assembly is activated by an infrared optical sensor located next to the air outlet. The dryer shall operate as long as hands are under air outlet with a lockout of approximately 50 seconds if hands are not removed.
HO-BL Model: A sealed electronic timer will operate the hand dryer for 30 seconds after push button actuation.

Limited Warranty

The dryer shall be guaranteed to be free of defects for a period of five (5) years. Warranty shall include labor performed at factory, as well as the repair or exchange of parts at manufacturer's option.
