

BEST PRACTICE FEATURES OF JALITE SAFETY SIGNS

1. High optical brightness border to provide contrast with surroundings and safety color.

2. ISO Graphical symbol with good recognition and comprehensibility using ISO 7010/NFPA 70.

3. High quality material options: Self adhesive vinyl and Aluminum. Choose between them with consideration for service environment and ease of installation.

4. Sign and graphical symbol size options available to respond to the expected observation distance.

6. Designed according to the principles of ISO 38641 and 3864-3 - Geometric shape, graphical symbols and layout.

9. Photoluminescent Material Code, proven performance and consistency and classified according to ISO 17398.

10. Manufacturer's name and trade mark as required by all ISO Standards for safety products.

11. Optional sub surface print for floor and other high wear applications.

12. Traceability mark to identify production information during manufacture according to ISO 9001 quality standards.

5. Key Graphical elements to improve understanding and design.

7. Color according to ANSI Z535.1: Safety color code

8. Explanatory supplementary text define and refine the safety message. Font style and size as required for ease of legability.

13. Unique design and product code for reordering and product identification.

Enhance Visibility

Use double sided flag mounted or panoramic signs to overcome the difficulty of seeing safety signs in corridors and large open areas. Flag mounted signs protrude perpendicular to the wall and are ideal for installation in a corridor, while panoramic signs place each face at an angle to the wall enabling the sign to be seen from a full 180°.

Flag mounted Signs Panoramic Signs
 Use code: **FSD or FSPT** Use Code: **PD or PPT**

Ask about our code compliant, energy saving EXIT signs.

When the lights go out, ours go on.™

HOW TO ORDER

Jalite Fire Safety Signs are available in our high quality photoluminescent printed Aluminum with a prefix: **SBA** Wall mounted flat signs also come in easily installed peel-n-stick self-adhesive vinyl with the prefix: **SBV**

Panoramic and Flag Mounted signs are only available in Aluminum and have the following suffix designations: Panoramic: **PPT or PD** Flag Mounted: **FSPT or FSD**

E.g. an order for 10 x **SBA6047PT** is for ten aluminum (**SBA**) Fire Extinguisher signs (**6047**), 4 x 12in in size (**PT**).
