

## SPECIFICATION

Recessed Baby Changer Bed Liner Dispenser shall hold and dispense 30 paper liners. Unit shall be fabricated of alloy 18-8 stainless steel, type 304. Frame and cabinet shall be 22 gauge and door shall be 20 gauge. All exposed surfaces shall be № 4 satin finish and be protected during shipment with a PVC film easily removable after installation. Door shall be attached to cabinet at bottom with a full length $3 / 16^{\prime \prime}$ dia. ( 5 mm ) stainless steel multi-staked piano hinge and be held closed with a tumbler lock keyed alike to other ASI washroom equipment. Face trim shall be $1^{\prime \prime}(25.4 \mathrm{~mm})$ wide formed from one piece with no mitres, welding or open seams and have $1 / 4^{\prime \prime}(6.35 \mathrm{~mm})$ square return to wall. Structural assembly of all components shall be of welded construction.

## Recessed Baby Changer Bed Liner Dispenser shall be Model № 9016 as manufactured by American Specialties, Inc. 441 Saw Mill River Road Yonkers, New York 10701-4913

## INSTALLATION

Unit is recessed mounted in wall using № 10 screws (by others) through concealed mounting holes provided. For compliance with ADA Accessibility Guidelines, unit should be installed so that liner dispenser slot is 54 " ( 1372 mm ) maximum above finished floor (AFF) if clear floor side reach access is provided or $48^{\prime \prime}(1219 \mathrm{~mm})$ maximum AFF if clear floor forward reach access only is provided. To comply with CalDAG mounting height, liner dispenser slot should be 40 " (1016mm) AFF. Note that bottom of RWO is $3 / 4^{\prime \prime}(19 \mathrm{~mm})$ above bottom of unit.

Rough Wall Opening (RWO) required is $\qquad$ 8-1/4' W x 16-1/4" H x 3-3/4' D minimum (210mm x 413mm x 95mm)

## OPERATION

Liners are self-feeding until supply is depleted. Unit may be reloaded with a partial load in-place and will continue to feed properly.
