PRODUCT OVERVIEW

Towel bar fabricated of 1" [25] O.D. x 20 gauge, type 304 stainless steel with a satin finish and designed not to turn in support posts. Support posts fabricated of heavy solid cast brass plated to have stainless steel satin finish to match stainless steel. Variable lengths available: 0755-SS-18 – 18" [457] Length 0755-SS-24 – 24" [610] Length 0755-SS-30 – 30" [762] Length

KEY FEATURES & SPECIFICATIONS

- Heavy Duty - Round Shaped Rod - 1" diameter
- Type 304 Stainless Steel - Satin Finish
- Heavy duty solid cast brass plated support posts.
- Surface Mounted

OPERATION & MAINTENANCE

Stainless Steel washroom accessory products require regular surface cleaning, much the same as stainless steel sinks, pots and pans and eating utensils. As long as a regular cleaning schedule is followed, the best method is cleaning with a soft clean rag moistened with a mild detergent, followed by a water-moistened clean rag and then a dry rag. For a "new" look, surfaces can be wiped with lemon oil applied by a soft polishing cloth to maintain sheen. Stainless Steel should be protected against muriatic acid and caustic or abrasive materials, and harsh cleaning detergents with pH outside the range 7 ± 1.5. In the event such agents cause discoloration, polishing with a stainless steel cleaner such as 3M Stainless Steel Cleaner & Polish and a soft cloth on bright or mirror finishes, or for satin finish surfaces the Stainless Steel cleaner and 3M Scotch Brite pad either blue (less aggressive) or green (more aggressive) is recommended.

TECHNICAL INFORMATION / PRODUCT PROPERTIES

Property	Value
Dimensions	1" diameter Tube [Ø25] / 18" [467] - 30" [762] length
Construction	Type 304 Stainless Steel - Satin Finish Heavy duty solid cast brass plated support posts.
Mounting	Surface Mounted
Capacity	N/A

INSTALLATION

For compliance with 2010 ADA Accessibility Standards, install unit so that centerline of bar is 48" [1219] Above Finished Floor (AFF) if clear floor forward reach access is provided or 46" [1168] AFF is side reach over obstruction is only provided (i.e. vanity). Surface mount each support post to wall with three (3) 1/4" diameter [Ø6] oval, pan or round head fasteners of length and type to suit wall conditions (supplied by installer) through mounting holes in posts. To mount on stud walls, provide concealed backing at screw points, secured to studs. Backing must comply with local building codes. If concealed backing is not provided, secure with toggle bolts. To mount on solid walls, use plastic or fiber type (Rawl®) plugs or expansion bolts.
