

1" O.D. heavy duty stainless steel grab bar with concealed mounting:

Product Materials

FLANGES: 3/8" dia. 13 gauge stainless steel.

ESCUTCHEONS: 22 gauge stainless steel. One-piece drawn construction with exposed surfaces in architectural satin finish. Snap over flanges to conceal mounting screws.

TUBING: 1" O.D. 18 gauge stainless steel, seamless construction with exposed surfaces in architectural satin finish. Bent ends of tubing pass thru the flanges and are welded for maximum strength. Intermediate supports are contour cut and joined by welding to form an integral part of the grab bar. All welds ground and polished to blend. Mandrel bending process maintains uniform bar diameter. Return provides 1 1/2" standard safety clearance between wall and bar.

Strength

When properly mounted, all Bradley heavy duty grab bar systems meet or exceed the requirements of ANSI Standard A117.1, the ADA and ABA Accessibility Guidelines for Buildings and Facilities (ADAAG), and the Uniform Federal Accessibility Standard (UFAS).

Installation

Verify all rough-in dimensions prior to installation. Secure to wall where adequate in-wall backing exists. Use bar as template to locate mounting holes. Drill holes and set anchors as appropriate. Mount grab bar and secure mounting screws (not included). Snap escutcheons into place. For Bradley grab bar mounting kits, please visit bradleycorp.com.

Optional Features

Features	Suffix
<input type="checkbox"/> Safety-grip finish	-2
<input type="checkbox"/> High-polish finish	-4
<input type="checkbox"/> Safety grip with high-polished finish	-7

Guide Specification

Grab bar shall be satin finish stainless steel with concealed mounting flanges in sizes and configurations as indicated. Install with Bradley Mounting Kits as indicated.
