

SUBMITTAL: MODEL TM™ FLUSH ACCESS PANELS

Model TM is an all-purpose 16 gauge cold rolled steel access door that affords fast and convenient access for inspection or service to vital components of plumbing, heating, air conditioning and/or electrical systems. The 1" frame flange adds rigidity and conceals the rough wall or ceiling openings. The concealed hinged door is mounted to the frame and swings open for ease in servicing, resulting in a door that always closes squarely in place.
