

# SUBMITTAL: LP- 4 SAFETY POST FOR LADDERS

The LP- 4 Safety Post provides a convenient and safe method of climbing off and onto fixed access ladders.

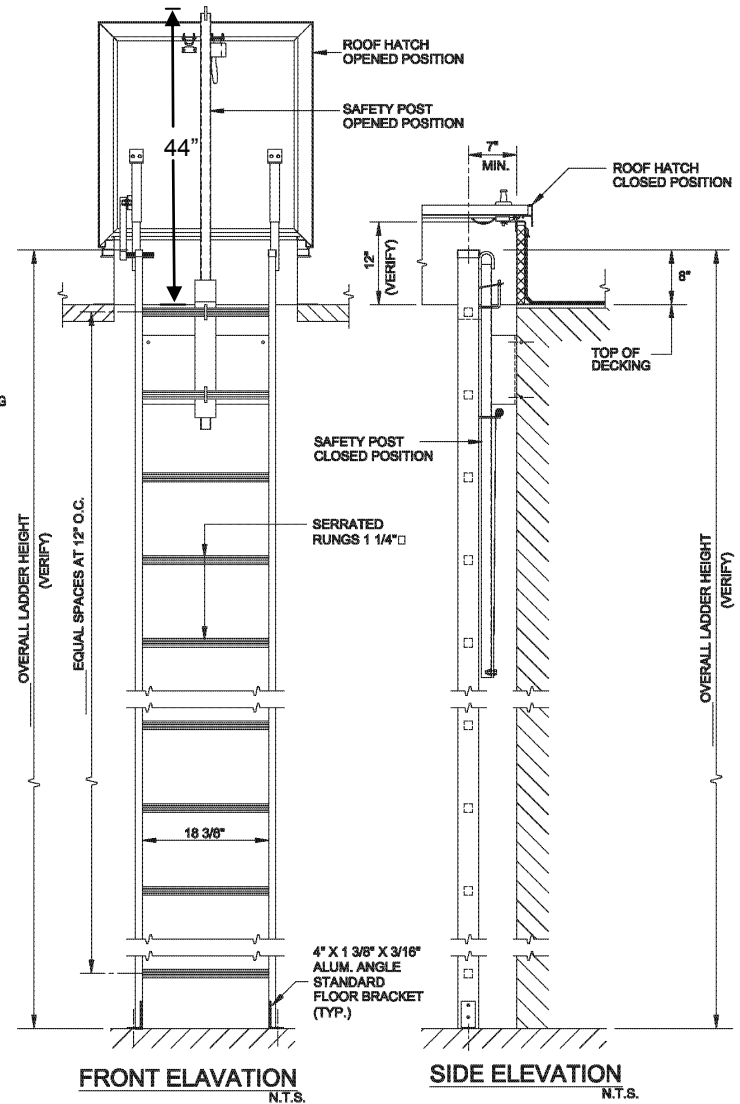

**Easy to Install:** The LP- 4 Safety Post comes pre-assembled and attaches directly to the top two rungs square or round) with two U-shaped bolts.

**Easy to Use:** When at the top of the ladder extend the safety post. The spring coil allows user to lift with just one hand. Step on or off the ladder in a safe standing position while holding onto the post. A latch maintains the post at variable heights and is easily released for retracting the pole.

**Safety features:** Include a square post for a no slip grip and a ring at top for a harness. We recommend a [Saf-T-Hatch](#) rail system in addition to the Safety Post for greater safety.

**Weight:** 25 lbs.

**Finish:** Powder-Coat Paint - Safety Yellow. (See LP-5 for Galvanized finish.)
