Professional Quality. Legendary Safety.™

Foundations is a world leader in children's furnishings. Our products empower caregivers to provide the highest quality care possible and are designed specifically to meet the unique demands of a commercial environment while delivering unsurpassed comfort and convenience. More Foundations cribs and accessories are used in child care centers and hotels than any other brand due to our relentless commitment to safety, innovation, quality, and value.

*We believe:*

- Children are our future and their proper development is the solution to society's challenges.
- It is everyone's responsibility to ensure the well-being of our children, and those in our care must be our highest priority.
- The resources needed to care for children should be accessible to everyone.

*These core values drive everything we do at Foundations.*

**UNDER NEW FEDERAL GUIDELINES U.S. CHILD CARE CENTERS AND HOTELS MUST REPLACE ALL IN-SERVICE CRIBS BY DECEMBER 28, 2012** FOUNDATIONS IS PLEASED TO INTRODUCE NEW CRIBS THAT ARE CERTIFIED COMPLIANT TO THE NEW 2010 CPSC STANDARDS

On December 28, 2010 the U.S. Consumer Product Safety Commission (CPSC) implemented sweeping new crib safety standards for traditional cribs made from steel and wood. In addition to eliminating drop-sides, they require extensive new structural enhancements, new labeling, and allow for alternative designs for accessing infants such as a drop-gate crib side. Under the new guidelines no traditional cribs, neither fixed-side nor drop-side, may remain in service in a public use environment after December 28, 2012 that are not compliant to these new standards and, as a result, must be replaced.

**A CRIB MUST BE STRONG TO BE SAFE**

The new mandatory Federal crib standard requires cribs to be more robust and structurally sound than ever before. This is why all 2011 Foundations child care nonfolding cribs, regardless of model, have a solid steel box frame with a lifetime warranty. This is revolutionary in the child care industry. We call it the *SafeSupport* crib frame but our caregivers call it *peace of mind*.

**THE SAFE AND CONVENIENT ALTERNATIVE TO A DROP-SIDE CRIB**

With the elimination of traditional drop-sides in the new Federal crib safety standards, caregivers need a safe alternative to infant access. This revolutionary new system enables caregivers to lower the side rail to access infant while minimizing the risk of back strain. Innovative hinging and latching system eliminates pinch point hazards to infant.

Available on *Serenity* and *BILTMORE* cribs.

**FIRST RESPONDER EVACUATION SYSTEM OFFERS UNPARALLELED STRENGTH**

Solid steel caster brackets, attached to solid steel evacuation hardware, attached to solid steel crib frame; there is no stronger evacuation system available in the market today. Lifetime warranty.

**ULTRADURABLE, ANTIMICROBIAL CRIB MATTRESS**

**CAREGIVERS ARE DEMANDING BETTER HYGIENE AND ENHANCED DURABILITY**

Foundations now offers the hygiene and durability previously found only in hospital grade mattresses. Professional Series mattresses feature revolutionary new, ultradurable, nylon reinforced vinyl for unprecedented durability. Antimicrobial vinyl provides superior hygiene. Hypoallergenic and phthalate free.

Also available in full-size.

## BILTMORE™

BEAUTIFUL STYLE COMBINED WITH THE ULTIMATE IN SAFETY AND FUNCTION

When child care centers want to make a statement in style and quality they turn to Biltmore cribs.

Headboards feature arched crown molding while beading details the perimeter of the crib to make Biltmore the most luxurious crib available to child care centers today.

Color coordinated finishes are matched with hardware and casters for added beauty.

High-quality construction includes mortise and tenon joinery and high strength fasteners for superior durability.

Revolutionary solid steel SafeSupport crib frame has unprecedented strength.

Fixed-side cribs feature a lower profile, providing easier accessibility to infant while reducing back strain for caregiver. SafeReach infant access system is also available.

Smooth plastic teething rails protect child and crib, while making it easy to sanitize.

Compact cribs include Professional Series 3" ultradurable antimicrobial mattress.

2" nonmarking, ultraquiet casters.

Easy assembly includes all necessary tools.

Crib has limited 5 year warranty, with lifetime warranty on steel frame, casters, and hardware.

# EVACUATION

## Getting the Infants to Safety

The First Responder Evacuation Route Sign enables child care centers to identify for rescuers and caregivers the safest route for evacuating infants. Arrow on sign can be applied in the right, left, or straight direction so that signs may be used in virtually any location. Evacuation route sign is printed on Glo Brite photoluminescent material that is also very visible in low-light, high-smoke and normal light conditions.

## Training the Staff

First Responder Evacuation Protocol instructs caregivers in the safe and proper evacuation of infants while using evacuation cribs. This sign is an invaluable quick reference and training tool for caregivers on how to safely evacuate children.

# First Responder<sup>™</sup> Evacuation System

patent pending

## THE COMPLETE SOLUTION TO INFANT EVACUATION

The First Responder evacuation system is the only comprehensive solution available to child care centers for infant evacuation.

First Responder crib features international Evacuation Crib icons printed in English, Spanish, and French and are visible from all four sides for rapid identification.

Integrated easy grip handles assist caregivers in stable transport.

Steel gussets bridge directly to the solid steel SafeSupport crib frame to provide the ultimate in strength and durability.

High-quality construction includes mortise and tenon joinery and high strength fasteners for superior durability.

Fixed-side cribs feature a lower profile, providing easier accessibility to infant while reducing back strain for caregiver.

Smooth plastic teething rails protect child and crib, while making it easy to sanitize.

2031097

THE UNIVERSAL APPEAL OF A TRADITIONAL STEEL CRIB COMPLEMENTS ANY ROOM DÉCOR AND NEVER GOES OUT OF STYLE. THE DURABILITY AND STRENGTH OF STEEL ENSURES THE INVESTMENT WILL PAY OFF FOR YEARS TO COME.

Fixed-side cribs constructed of heavy-duty steel using a 360 degree welding process to provide long-lasting strength. The nonporous, easy to clean, powder coated finish resists corrosion and scratches. Features reinforced floorboards and oversized locking casters made of nonmarking material for easy transport over any surface. A commercial grade mattress is included with every compact Chelsea , StowAway , and Pinnacle crib. Limited one year warranty.

### **Chelsea Compact-Size Steel, Nonfolding Crib**

Offers quality and safety at a great value. Mattress board adjusts to two heights for easy access to infant and so crib may be used as a bassinet. Comes with 4" casters, two locking and two nonlocking. Sleeping surface is 24" x 38". Crib includes a 3" thick DuraLoft foam mattress.

## THE WARMTH AND NATURAL BEAUTY OF A SOLID WOOD CRIB MAKE INFANTS FEEL AT HOME

Wood folding fixed-side cribs are the perfect fit for hotels, vacation homes, grandmas house, or any location that needs an occasional use crib that is safe, durable, and stylish.

Innovative hinges have a unique two point pivot that keeps hinge flush with crib to prevent child's clothing or bedding from getting caught and allows cribs to fold with ease for storage.

Headboards feature mortise and tenon construction to provide added strength.

Durable, long-lasting finishes are color coordinated with antique brass hardware and casters for enhanced beauty.

Features 4" nonmarking, ultraquiet casters (two locking) that will maneuver over any surface to meet the demands of a hotel environment.

Professional Series ultradurable, antimicrobial mattress provides superior comfort and is included with every HideAway and Royale crib.

Easy assembly includes all necessary tools.

Limited one year warranty.

## PLAY YARDS OFFER STYLE, CONVENIENCE, AND PORTABILITY AT AN EXTRAORDINARY VALUE

When facilities are concerned about storage space, or want to add an element of style, they turn to play yards.

Popular where space is limited or where a high number of cribs is required; play yards may be stored in very small spaces.

The lower cost of play yards also enables caregivers to refresh their cribs more often and offer new, updated styles.

Easy assembly, no tools required.

Limited one year warranty.

## FOUNDATIONS OFFERS THE WIDEST SELECTION OF DESIGNS AND FABRICATIONS, THE BEST OVERALL VALUE, AND THE EASIEST INSTALLATION AVAILABLE IN THE MARKET TODAY.

In addition to the popular polyethylene changing stations, Foundations is the only company to offer full stainless steel models, as well as special needs changing stations for individuals with physical challenges.

All our changing stations include ANSI warning labels and are ADA compliant when properly installed.

Foundations changing stations are the result of nearly two decades of product development and are made in the USA with a limited five year no hassle warranty.

Foundations horizontal polyethylene and clad stainless steel diaper changing stations support up to 250 pounds with only minimal deflection.

Foundations vertical polyethylene diaper changing station supports up to 150 pounds with only minimal deflection.

Our most popular units also include warnings and instructions in Braille.

Regardless of whether your facility is a school, hotel, church, health care facility, retail establishment, entertainment venue or public building, we have a changing station to fit your application.

### Polyethylene

Built-in **liner dispensers**

### Durable

easy to clean, high density polyethylene is inherently bacteria resistant.

The horizontal polyethylene is our best selling changing station and is the **most preferred** changing position.

### ADA and ANSI

compliant when properly installed and meets ASTM Safety Standards.

Includes all necessary **mounting hardware**

### Clean design

fits virtually all décors.

### Safety strap

made of a liquid-proof nylon sanitizes easily and adjusts with one hand.

### Steel-on-steel hinge

and gas shock ensures changing station will meet the rigorous demands of public facilities

Offering a **narrower footprint**, the vertical model allows for mounting in smaller spaces.

### EZ Mount (Patented)

Foundations exclusive EZ Mount backer plate makes installing easier and faster while ensuring secure attachment by anchoring into two studs.

## Full Stainless Steel (Patented)

### 304 brushed stainless steel

is perfect for high use facilities where the ultimate in durability and beauty is required.

### Pneumatic gas springs

for safe and easy opening and closing.

Equipped with durable, **replaceable ABS tray** that is inherently bacteria resistant.

All models are **ADA and ANSI** compliant when properly installed.

**Safety strap** made of a liquid-proof nylon sanitizes easily and adjusts with one hand.

Available in both **surface mount and recessed mount** options to accommodate virtually any application.

Cushioned **safety corner** for added protection.

## Clad Stainless Steel (Patented)

Combines 100-EH polyethylene horizontal changing station with a brushed 304 stainless steel shell to deliver upscale appearance for high finish facilities at a great value. Cannot be used with EZ Mount backer plate.

## Special Needs Changing Station (Patented)

Same great features as full stainless steel with extended length of 62" and is designed for children and adults with physical challenges. Dual pneumatic gas springs adds superior strength and supports a static load of 400 lbs.

# HIGH CHAIRS

## Transitions High Chair

Easy one-touch button converts high chair into a low chair that sits close to the floor, enabling a child to climb into the seat with minimal assistance from caregiver. The high chair can be changed into a toddler table with chair, giving this product extra value and longevity. High chair includes three position recline seat with five point harness and convenient adjustable dishwasher safe tray. Meets or exceeds ASTM Safety Standard F404. Available in Blue/Almond. Low chair can also be purchased separately. Five year limited warranty.

Low Chair

High Chair

High chair converts to desk with chair

## Classic Wood High Chair

Durable solid construction will provide long lasting and reliable use. All edges are rounded for safety and a more finished appearance. Stackable up to four high using a small footprint to reduce storage space. Dual action buckle and adjustable harness for added security. Nonskid rubber feet will not leave any marks on the floors. Meets or exceeds the ASTM F404 safety requirements for passive restraints as well as stability, static overload, and product safety labeling. Available in both cherry and natural finishes to complement any décor. Limited one year limited warranty.

# STROLLERS

**LX™ Strollers**

THE ONLY MULTICHILD STROLLERS DESIGNED AND TESTED TO ACCOMMODATE CHILDREN UP TO 50 LBS.

**Comfort Matters**

Exclusive ComfortPush handle automatically disengages brake with forward motion of the stroller eliminating hand fatigue for caregiver.

**Safety Matters**

SafeBrake system automatically engages when caregiver is separated from stroller. Secondary manual parking brake for added security. Adjustable 5 point harness sized to fit up to 50 lb. children. Extra-large canopy shields children from harmful UV rays.

**LX4™ Four Child Stroller**

**Strength Matters**

Extra heavy-duty steel frame with double walled tubing in critical areas for unprecedented strength.

Limited one year warranty.

**Size Matters**

Extra large seating area and headroom accommodate children up to **50 lbs.**

**Durability Matters**

Wear resistant, shoe-less braking system eliminates need for adjustment or replacement. Extra durable, easy-to-clean fabrics protect your investment for years to come.

## LX6™ Six Child Stroller

4130037  
Regatta

## LX3™ Three Child Stroller

Whether caregivers need to accommodate three, four, or six children, Foundations has a multichild stroller that is perfect for their needs. All LX strollers share the same great features including accommodating children up to 50 pounds.

All Foundations strollers feature our innovative braking systems. The SafeBrake system engages when the caregiver releases the handle, eliminating risk of a runaway stroller. A secondary foot activated brake secures the stroller when parked.

Extra large storage baskets provide ample space for diaper bags, blankets, toys, and caregivers supplies. Wide opening makes accessing storage space effortless.
