

STEALTH

ACCESS PANELS BY WIND-LOCK®

Hinged Access Panels

Flush Cam Lock

Stealth Hinged Access Panels

Designed for both wall and ceiling applications, the hinged Stealth Panel can be used where a locked door is needed but style is still maintained.

The hinged panel is great for use in ceiling applications where there is no clearance to push a door up and in wall applications when access to plumbing and electrical is needed.

The Stealth Hinged Access Panel consists of a frame and door with concealed hinges and a key lock.

PRODUCT FEATURES

- Tapered edge for tape joint
- Easily textured
- Lightweight
- Blends into surrounding drywall
- No Shrinking or Cracking or Rusting
- Single Trade Installation
